1. Navigate to your settings menu and

How to ... Set Parental Controls on your iPhone, iPad and iPod Touch

As internet-aware and concerned parents we are familiar with the dangers that the internet can present to our children so it is not surprising that many parents ensure controls are in place on their child's internet access devices which can help to protect them. Below we have listed the steps to enable restrictions on you IOS based device (iPhone, iPad, iPod Touch). Please note that the details have been taken from a device running IOS 6.1.2, your device options may differ slightly.

select **general** Settings a. .. 02-UK Settings C Do Not Disturb OFF Notifications > General \odot > Sounds > **Brightness & Wallpaper** > Privacy > iCloud > Mail, Contacts, Calendars > Notes > Reminders > b. **Microsoft** Partner MICROSOFT

Authorized Education Reseller

2. Next select **Restrictions**, then click **Enable Restrictions** you will then be prompted to **enter a passcode**. Note this passcode down, as you will need this in the future.

d. Allow Changes

This section allows you to control if the user can add or remove e-mail accounts or modify the volume limit. Please take note of the volume limit, as high volume can damage hearing.

4. Once completed press the **home button** and the settings will be applied

IOS: a mobile operating system developed and distributed by Apple Inc.

SIRI: (pronounced /'sıri/) is an intelligent personal assistant and knowledge navigator which works as an application for Apple's iOS.

PG: Parental Guidance.
