Dear Parents / Carers

Following the government announcement at the beginning of the week to delay reducing restrictions and the rising numbers of Covid cases across the county our school will continue to follow government guidance and have the following safety measures in place until the end of term. All children will remain in their class bubble and will not mix across the school, staggered times into school and at pick up time will remain the same, parents / carers will not be permitted into school unless by prior appointment and all adults will wear face coverings around the school when a 2- metre distance cannot be maintained.

We are all so disappointed that our end of year celebrations will not be the same as in previous years but the teachers are working very hard to ensure the end of year is still fun for the children.

There will be a cream tea picnic for children and parents in year 6 on the last day of term, there will be a separate letter about this.

Many thanks for your continued support,

Demelza Bolton

**June 15 - June 20**

**This week is Refugee Week.**

**We will be thinking about ways that we can welcome others.**

Refugee Week takes place every year across the world in the week around World Refugee Day on the 20 June. In the UK, Refugee Week is a nationwide programme of arts, cultural and educational events that celebrate the contribution of refugees to the UK, and encourages a better understanding between communities.

Jesus asks us to work towards the Kingdom of God and the Kingdom of God is welcoming to everyone.

Let us remember to be accepting to others whenever and wherever we meet them.

## **News from Drew and Exeter**

### **University's Gull project**

"My name is Drew and I am a masters student at the University of Exeter. I'm learning about the gulls that are up on the roof of St. Marys and other places in the local area.

I want to know if the parents behave differently when there are street lights shining near their nest. I have some boxes up near a few of the nests which can tell me about the lights, and cameras which will film the parents when they come to take care of the chicks!

On your roof we counted 17 nests and the youngest chicks are almost three weeks old now, they'll soon start growing some grown-up feathers and getting ready to fly!

I hope that I will have lots of nice videos of the gulls to share when I come back to check the cameras"

St Marys were lucky enough to host CAFOD's climate crisis campaign 'Eyes of the World' last Friday.
