Policy for the Education of Children in Care

At St Mary's School we believe that all Children in Care should have equitable access to excellent educational provision and achieve at a similar level to all children. We as a school community aim to be champions for Children in Care and take a proactive approach to support their success, recognising that we as school have a vital role to play in promoting children and young people's social and emotional development.

Our aims to support Children in Care

- Provide a safe and secure environment, which values education and believes in the abilities and potential of all children.
- Bring the educational attainments of our Children in Care nearer to those of their peers.
- Making sure that they have access to education appropriate to their age and ability. This includes access to a broad and balanced curriculum.
- Identifying our schools' role to promote and support the education of our Children in Care. Asking the question, 'Would this be good enough for my child?'
- All settings are required to have a Designated Teacher (DT) for Children in Care who will act as their advocate and coordinate support for them, liaising with carers, natural parents (as appropriate) and social workers on a wide variety of educational and care issues

All staff and governors are committed to ensuring improved educational life chances for Children in Care by ensuring that the relevant personnel have reasonable support and time to complete tasks and responsibilities and to establish and maintain appropriate reporting and monitoring procedures both within the school and with other agencies.
